SEVENTH FRAMEWORK
PROGRAMME

DwB

2nd European Data Access Forum

- Welcome!

- A Forum organized within the framework of the FP7 Data without Boundaries project

- Thanks for the support of Eurostat

- 1st EDAF organized 26-28 March 2012

DwB: A Short Reminder

- **It is about**
  - ➤ Researchers access to official microdata in Europe, both European and national
  - ➤ Researchers access to confidential microdata in Europe
  - ➤ Researchers transnational access to confidential microdata within Europe

- **It is about**
  - ➤ Legal frameworks for access, procedures, services and tools for discovery and access

- **It is also about**
  - ➤ More cooperation between the different communities
  - ➤ the European Statistical System (with NSIs, other OS producers, Eurostat,CBs, EBC)
  - ➤ the archives with CESSDA
  - ➤ the researchers who are the final users
  - ➤ other stakeholders such as research councils, authorities in charge of privacy protection

European Data Access Forum within DwB

- Bringing together the different communities for discussing how to enhance access over Europe to the rich resources of official microdata

    - ➤ Where are we?
    - ➤ Progress, new issues?
    - ➤ Best practices, innovative solutions
    - ➤ How to best cooperate?

- Meant to have the different communities presenting services, projects, beliefs for an overall discussion
    - ➤ DwB outputs are part of this but not the only component of the EDAF program

2nd EDAF program (1)

Overall structure of the programme

- ➢ Balance between progress for national access, transnational access, European access

- ➢ Balance between metadata, access and SDC issues all important at national as well as at European level

- ➢ Balance between users (researchers, public policies), providers (RDCs archives) and producers perspectives

- ➢ Balance between DwB outputs and other developments (many proposals THANKS !)

- ➢ Bridge with the health sector that has quite similar issues

- ➢ Non European perspective important to keep in mind

The EDAF program (2)

Setting up the scene

➢ The RDCs and researchers perspectives (session 2)

➢ National and transnational access to official microdata: legal frameworks, procedures, practices. Where are we? (plenary session 3)

   + 3 parallel sessions

   – *Legal frameworks and procedures (M1)*

   – *Synthetic data: future perspectives regarding privacy protection (M2)*

   – *Metadata for official microdata: an outlook for the future (M3)*

How to progress?

➢ How useful is the notion of "circle of trust"? A vision for the future (session 4)

➢ Core elements for European Services for Official Statistics (session 5)

   o   Access services and tools and services for discovery

How to best cooperate and face future challenges? (session 6)

And More...

- **Several DwB fact sheets available**
  - DwB CIMES (Centralising & Integrating Metadata from European Statistics)
  - DwB Resource Discovery Portal (RDP)
  - DwB European Remote Access Network architecture (Eu-RAN)
  - State-of-play of Remote Access Systems across Europe
  - Access to Official Statistics Microdata: Researchers' Requirements & Viewpoint

- **Several demos available during breaks**
  - DwB CIMES
  - MISSY (Microdata Information System)
  - Resource Discovery Portal
  - DwB Legal Frameworks Visualisation Tool
  - French Epidemiological Portal
  - The Integrated European Census Microdata (IECM) Project
EDAF in the future?

- 2 European Data Access Forum planned within DwB

- DwB now at its end: April 30, 2015 !

- Many achievements but much remains to be done !

- EDAF beyond DwB ? A question for the final session

Practicalities

- **Use the microphone !**

- **Coffee Breaks** in the lobby

- **Lunch breaks** on the basement floor (right side of the second flight of escalator)

- **Social Dinner**:
  - ➢ In the SOFITEL hall at 20:00
