Supporting Transnational Access to Government and Confidential Microdata

What we do: Provide support and funding to empirical research projects based on highly-detailed data, including from national government sources, available in the Research Data Centres involved in DwB.

How: The research projects selected in our biannual calls will be given support and remote or on-site access to the data.

Who can apply: Researchers working in the EU and associated countries.

FOSTERING THE USE OF HIGHLY-DETAILED MICRODATA AND SUPPORTING TRANS-NATIONAL RESEARCH
